

Library

FINISH

Congrats,
you've reached
the library!

Full STEAM Ahead!

RULES

Place your token on **START**. Spin the wheel and move your character forward the number of spaces shown. Follow the instructions on the space you land on. If you move again, **don't follow** the new space's instructions. **The first player to reach the library wins!**

You read to a family member.
Do a quick victory dance!

Created a color-changing potion in science class by mixing acids and bases.
Move to a purple space.

Make a quick drawing of a funny character.
Act out what it would sound like.

Spent too much time on apps.
Move back 7 spaces.

A computer glitch made you itch!
Skip a turn to reboot.

Oops! You got distracted by the TV.
Move back 9 spaces.

You were feeling **a-cute** but then a car splashed mud on your face at a 45° angle. **Straighten up to 90° and shake it off.**

Researched a topic on the computer for a Science project.
Click ahead 1 space.

Engineered a roller coaster using physics, considering gravity, speed, and friction.
For 5 seconds act like you are on a roller coaster ride.

START

Place your character tokens here.

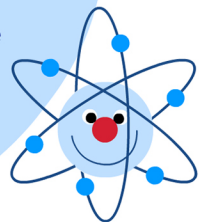

Looked at signs while going on a walk and read them. **Walk in place for 15 seconds.**

Learned how gears on a bicycle work.
Pedal to the next light blue space.

Lost a mystery book and had to find it.
Skip a turn.

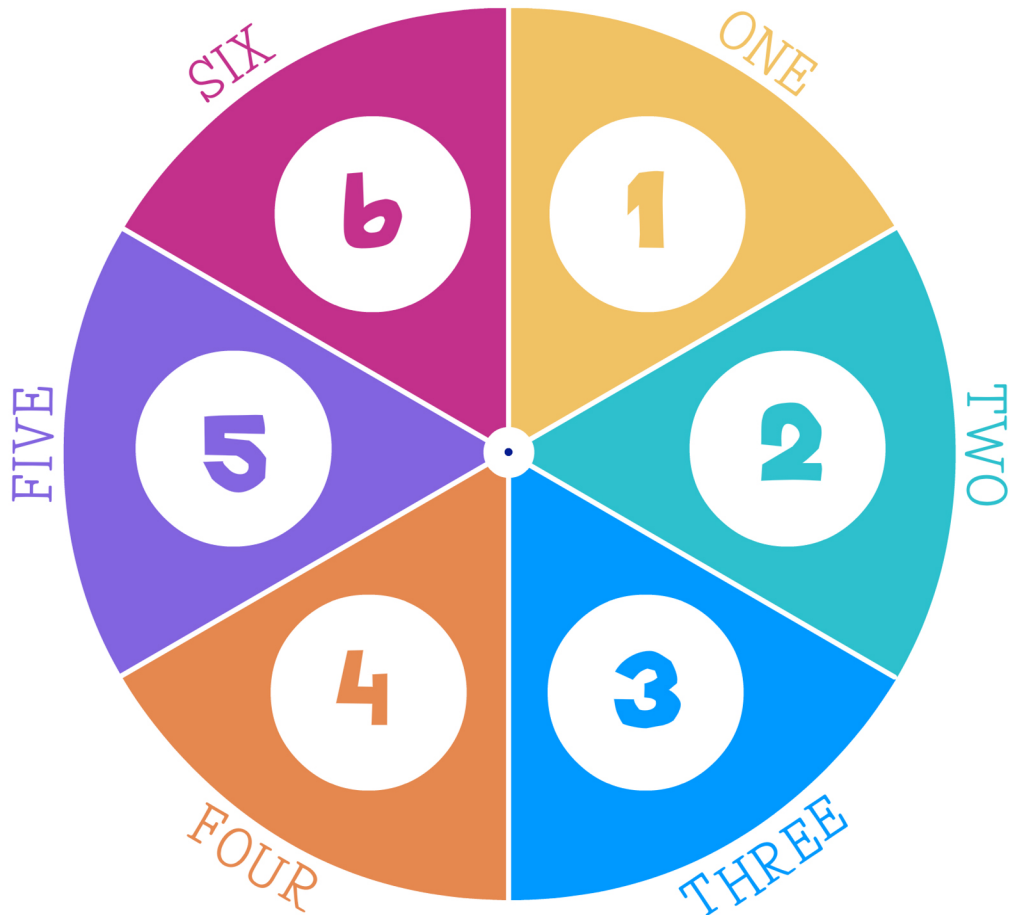

Learned that everything is made up of atoms. Even the air we breathe!
Take a deep breath.

Number Wheel

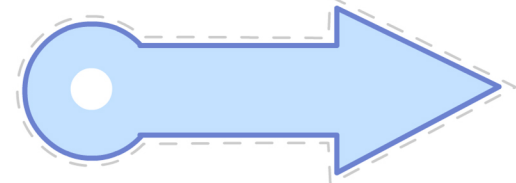

Cut around the outer edge of the number wheel board. If needed, glue down to a piece of cardboard to make it sturdier.

Full STEAM Ahead!

Spinner Arrow

Cut out the spinner arrow. Create a hole and then attach the arrow to the center of the number wheel with a brad fastener. Adjust the fastener and hole to make sure the arrow is spinning freely.

Note: If using thinner paper, glue the arrow down to a thin piece of cardboard, like a cereal box, for extra durability.

Character Tokens

Cut out the tokens. Fold in half on the gray line. Fold the paper outward at the dotted lines to form a stand. Glue the top portion together.
